Re: Revisions to Chemical Processors, Inc. Pier 91 Facility
Part B Permit Application

Dear Ms. Sikorski:

Please find enclosed revisions to the Chemical Processors, Inc. Pier 91 Facility Part B Permit Application. These revisions are submitted in response to Ecology's NOD #1 for the Pier 91 Facility, dated April 24, 1990. Please note that in a letter from Cindy Gilder dated May 14, 1990, the submittal date was revised from July 1 (Sunday) to July 2 (Monday). As requested by Ecology, these revisions also address issues raised in preceding NODs for the Tacoma, Georgetown, and Washougal facilities.

Two sets of revisions are being supplied to EPA for copies 4 and 5 of the permit application. Copies of the permit application revisions have also been sent to Ecology. Please place these revisions in your copies of the permit application, as indicated on the instruction sheets provided.

Two appendix tabs for new appendices D-9 and D-10 are currently missing from the enclosed revisions. Final printing of the tabs was delayed by a printing error. The appendix tabs will be completed by our outside printer this week, and will be sent to you by July 6, 1990. Additional revision instructions will be enclosed with the appendix tabs.

I can be reached at 223-0500 if you have any questions.

Sincerely,

Catherine L. Buller
